

Colorado River Basin Poll Results: Wyoming

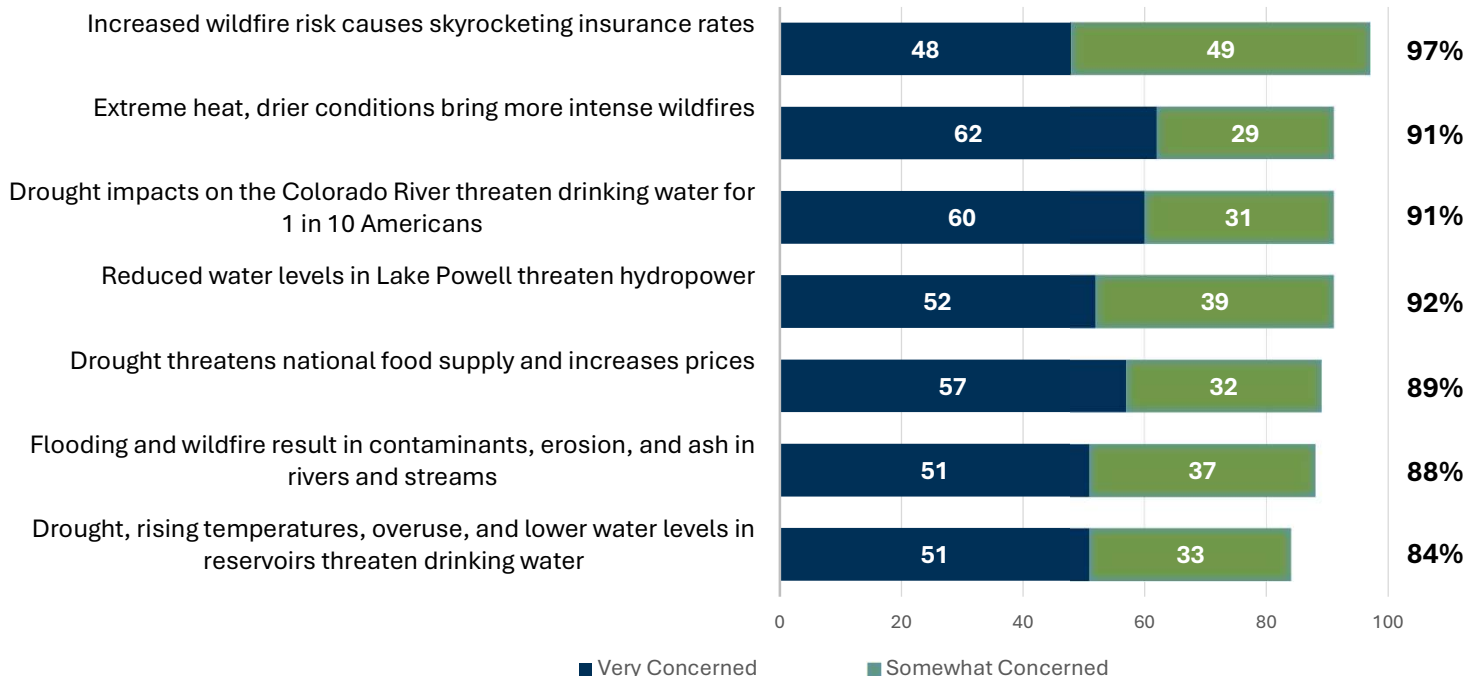

Key Takeaways:

- 88% of Wyoming adults believe addressing drought impacts and diminishing water supplies from the Colorado River is a priority.
- Nearly all Wyoming adults believe that it is important for federal officials (95%) and Colorado state officials (98%) to improve water security in the Colorado River Basin.
- Wyoming adults are concerned drier conditions and diminishing the Colorado River water will bring more intense wildfires, cause skyrocketing insurance rates, and threaten drinking water supplies.
- Wyoming adults believe government officials should prioritize restoring wetlands, implementing water-saving strategies, increasing agricultural efficiency, and managing forests to protect water supplies. Concern about the drought and diminishing water supplies is a bipartisan issue with high concern across the political parties.

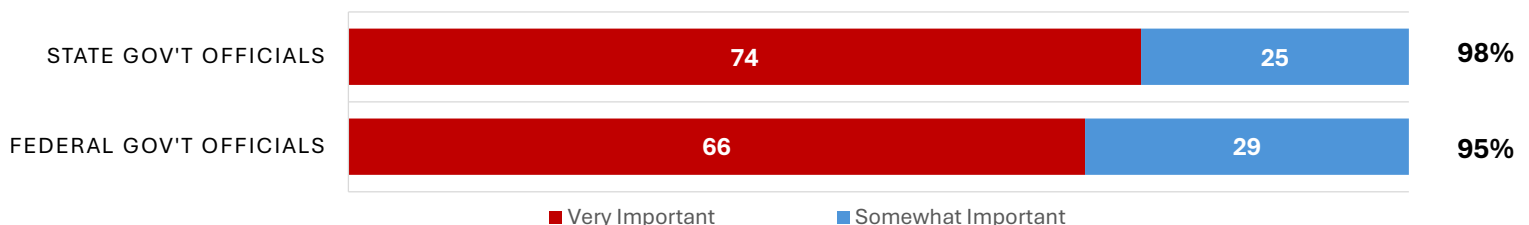

ADDRESSING DIMINISHING COLORADO RIVER WATER SUPPLIES IS A PRIORITY

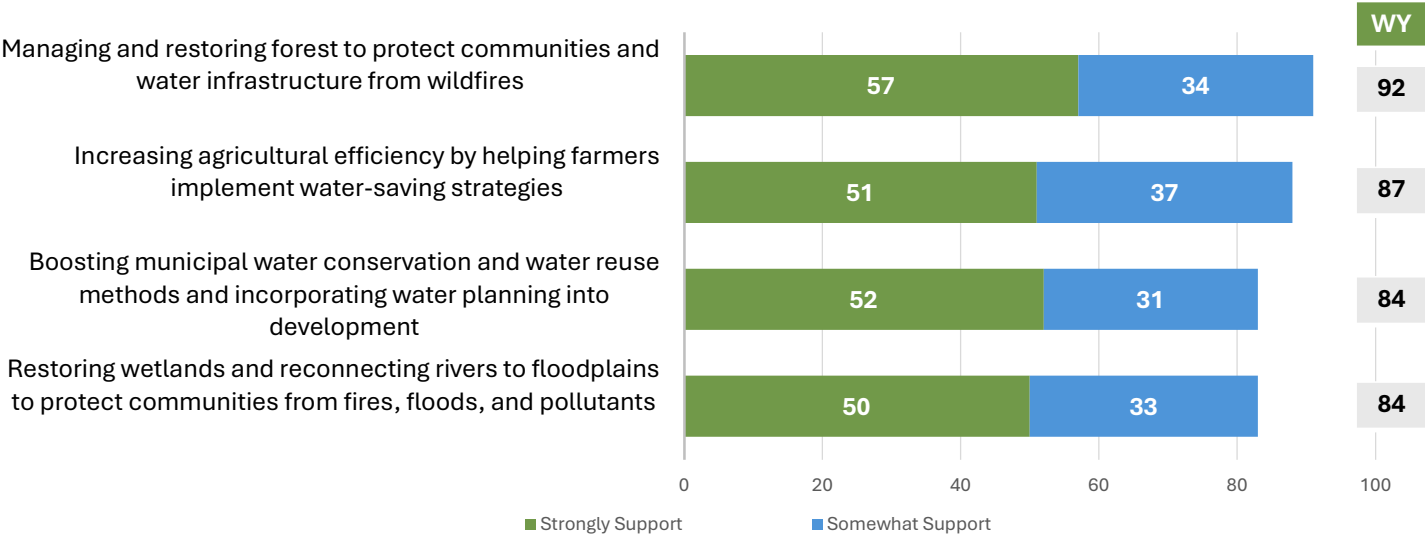

WYOMING ADULTS ARE CONCERNED ABOUT DROUGHT AND COLORADO RIVER SUPPLIES

WYOMING ADULTS BELIEVE FEDERAL AND STATE OFFICIALS SHOULD PRIORITIZE WATER SECURITY IN COLORADO RIVER BASIN STATES

STRONG BIPARTISAN SUPPORT FOR APPROACHES TO PROTECT THE COLORADO RIVER AND WATER SECURITY

WYOMING RESIDENTS PRIORITIZE LONG-TERM AND SHORT-TERM STRATEGIES FOR THE COLORADO RIVER

WYOMING'S PRIORITIES FOR COLORADO RIVER MANAGEMENT (Top or Important Priority)

	Wyoming	CRB/Water Counties
Helping farmers and ranchers adapt to hotter and drier conditions while maintaining food production	96%	96%
Reducing wildfire, flood, and drought impacts that threaten water supplies	93%	97%
Stabilizing water supplies now while preparing communities, economies, and ecosystems for future drought and water supply uncertainties	92%	88%
Ensuring reliable water supplies for communities and future generations	91%	85%
Protecting rivers, fish, wildlife habitat, and outdoor recreation opportunities	90%	93%
Preventing critically low water levels and power supply risks in reservoirs	90%	86%
Investing in water infrastructure and resilience strategies that maintain healthy forests, rivers, and streams and modernize water delivery systems to improve long-term water reliability	87%	85%

The Walton Family Foundation sponsored this multi-state project. This poll was conducted by Morning Consult between June 12-19, 2026, among a sample of 2,474 registered voters across 7 states, including 100 in Wyoming. 51 interviews were conducted in Wyoming's Colorado River Basin counties and those who draw water from the basin. The interviews were conducted online, and the data were weighted to approximate a target sample of Adults based on age, gender, race/ethnicity, education, and party identification, within each state. Survey results are provided for educational and informational purposes only. They are not intended to, and do not, support or oppose any candidate for political office, political party, election outcome, ballot measure, or specific legislation.
