

Colorado River Basin Poll Results: Nevada

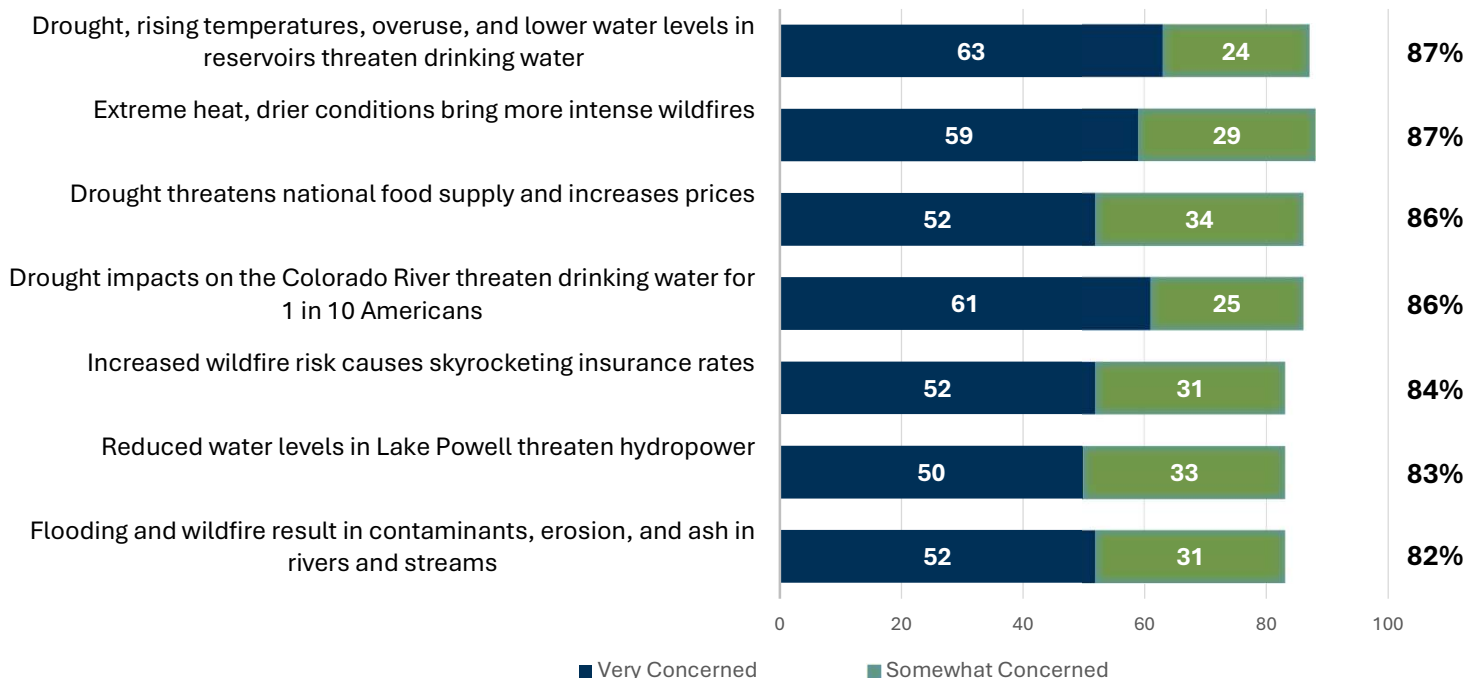

Key Takeaways:

- 84% of Nevada adults believe addressing drought impacts and diminishing water supplies from the Colorado River is a priority.
- Nearly all Nevada adults believe that it is important for federal officials (89%) and Colorado state officials (91%) to improve water security in the Colorado River Basin.
- Nevada adults are concerned drier conditions and diminishing the Colorado River water will bring more intense wildfires, threaten drinking water supplies, and increase food supplies.
- Nevada adults believe government officials should prioritize restoring wetlands, implementing water-saving strategies, increasing agricultural efficiency, and managing forests to protect water supplies. Concern about the drought and diminishing water supplies is a bipartisan issue with high concern across the political parties.

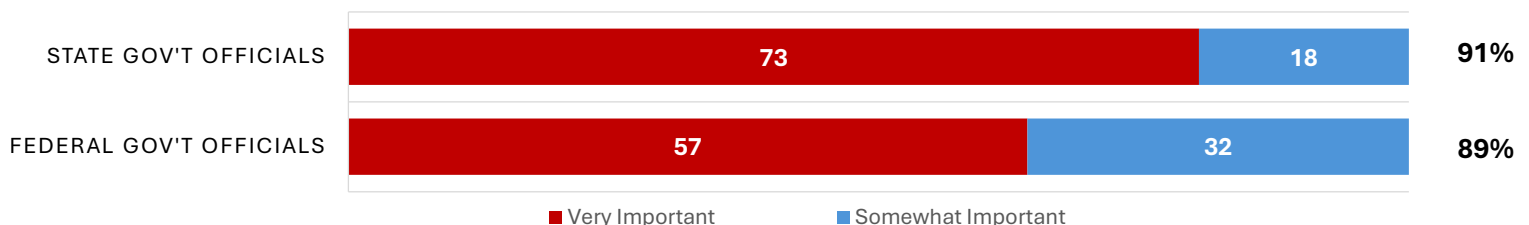

ADDRESSING DIMINISHING COLORADO RIVER WATER SUPPLIES IS A PRIORITY

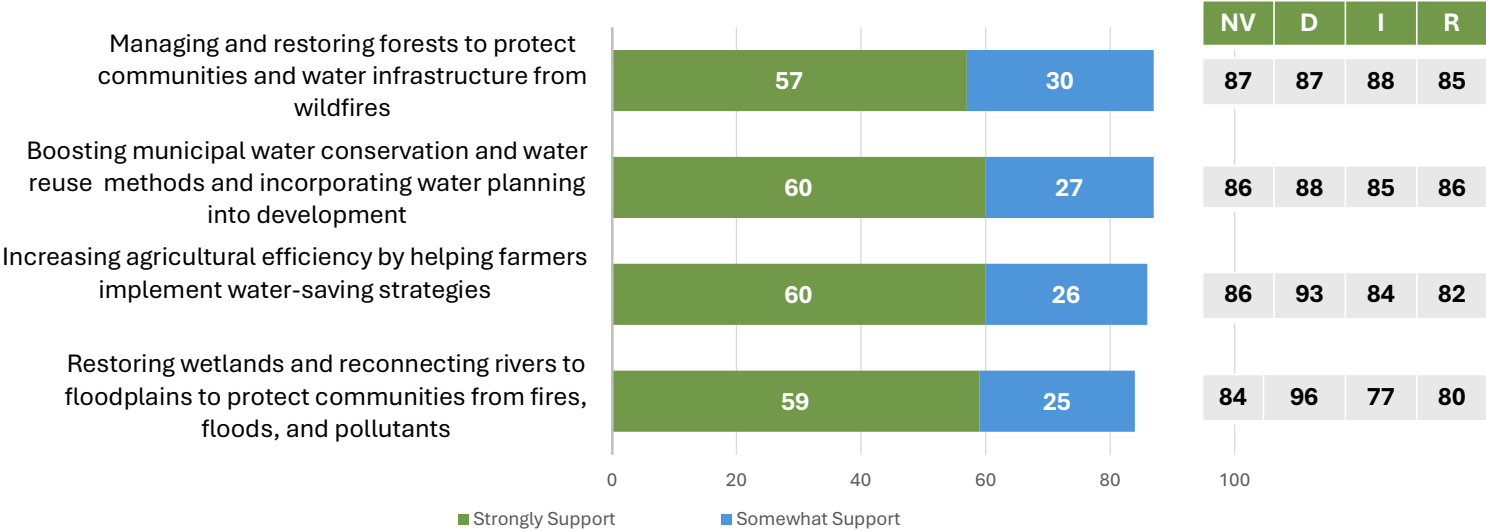

NEVADANS ARE CONCERNED ABOUT DROUGHT AND COLORADO RIVER SUPPLIES

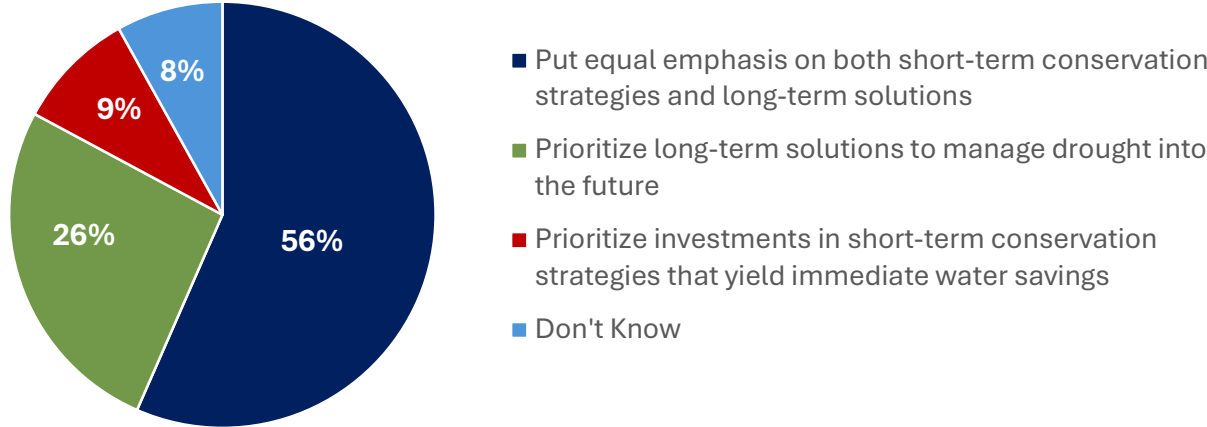

NEVADANS BELIEVE FEDERAL AND STATE OFFICIALS SHOULD PRIORITIZE WATER SECURITY IN COLORADO RIVER BASIN STATES

STRONG BIPARTISAN SUPPORT FOR APPROACHES TO PROTECT THE COLORADO RIVER AND WATER SECURITY

NEVADA RESIDENTS PRIORITIZE LONG-TERM AND SHORT-TERM STRATEGIES FOR THE COLORADO RIVER

NEVADA’S PRIORITIES FOR COLORADO RIVER MANAGEMENT					
(Top or Important Priority)					
	Nevada	CRB/Water Counties	Democrat	Independent	Republican
Reducing wildfire, flood, and drought impacts that threaten water supplies	91%	90%	94%	89%	91%
Preventing critically low water levels and power supply risks in reservoirs	90%	88%	9%	90%	87%
Ensuring reliable water supplies for communities and future generations	90%	87%	96%	89%	85%
Stabilizing water supplies now while preparing communities, economies, and ecosystems for future drought and water supply uncertainties	90%	87%	95%	88%	87%
Investing in water infrastructure and resilience strategies that maintain healthy forests, rivers, and streams and modernize water delivery systems to improve long-term water reliability	89%	87%	94%	89%	86%
Helping farmers and ranchers adapt to hotter and drier conditions while maintaining food production	88%	85%	96%	88%	82%
Protecting rivers, fish, wildlife habitat, and outdoor recreation opportunities	85%	82%	90%	86%	81%

The Walton Family Foundation sponsored this multi-state project. This poll was conducted by Morning Consult between June 12-19, 2026, among a sample of 2,474 registered voters across 7 states, including 406 in Nevada. 328 interviews were conducted in Nevada’s Colorado River Basin counties and those who draw water from the basin. The interviews were conducted online, and the data were weighted to approximate a target sample of Adults based on age, gender, race/ethnicity, education, and party identification, within each state. Survey results are provided for educational and informational purposes only. They are not intended to, and do not, support or oppose any candidate for political office, political party, election outcome, ballot measure, or specific legislation.
